# EMP Prosper Trial Pack

## A Probiotic Unlike Any Other

As most people know, probiotics are tiny living microorganisms that are vital to the body's ability to digest food and absorb nutrients. Most digestive supplements intend to assist your body's natural digestive process by providing it with additional probiotics. They cram tens of billions of living cultures into a pill hoping that at least around 2-3% survive. EMP Prosper is different. We deliver them as spores so that they are able to survive the harsh conditions of the stomach where they find a home in the gastrointestinal (GI) tract, right where they should be. Nearly 100% of them survive! So even though we only include 4 billion in EMP Prosper, you still end up with more than you would with most other probiotic supplements. Amazing!

## Supplement Facts

Servings per Container: 30

Serving Size: 1 Stik (2.4 g)

### Amount per Serving

<b>Probiotic Spore Blend</b>	<b>4 Billion CFU</b>
Bacillus Subtilis HU58 Probiotic Spores	2 Billion CFU

<b>Prebiotic Fiber Blend</b>	<b>300 mg</b>
FiberSMART™ Soluble Corn Fiber	
Inulin Fiber (from Chicory)	

Other Ingredients: Erythritol, 18-Strain Digestive Enzyme Blend, Natural Flavor, Malic Acid

## Did You Know?

Research has shown that there is a strong connection between the gut and the brain. The gut is where our daily nutrient intake is absorbed from the food we eat and the supplements we take. On the other hand, the brain is the highest consumer of energy in the body. This energy comes in the form of those vital nutrients that we take in. So if the gut is absorbing lots of nutrients, then we know that our brain is getting them as well.

Healthy gut, healthy brain!

## How to Take It

Our amazing Direct-to-Mouth (DTM) delivery method means that all you have to do is put the powder directly onto your tongue and let it dissolve. It really is that easy and it tastes great! We recommend taking it after a meal for best results.

Prebiotic + Probiotic  
with Digestive Enzymes

**4 Billion CFU**

It's not what you **take**,  
it's what you **absorb**
