ABOUT

Two products in one! EMPowerplus Lightning™ nutritional supplement combined with Prosper, a powerful combination of prebiotics, probiotics, and digestive enzymes for gut health.

EMPowerplus Lightning™ uses the same formula of 36 vitamins and minerals that is in the original EMPowerplus™ Advanced supplement with a revolutionary direct-to-mouth (DTM) delivery system. It is backed by some impressive science and more than 20 years of personal stories of improved health and well-being.

Increasing the number of probiotics (tiny living microorganisms that help the body digest food and absorb nutrients) in the gastrointestinal (GI) tract can improve gut health. Other probiotics pack tens of billions of living cultures into a pill hoping at least 2-3% survive. Because the probiotics in Prosper are in spore form, they are able to survive the harsh conditions of the stomach to then find a home in the GI tract—right where they should be. Nearly 100% of them survive, so the 4 billion CFU in Prosper provides far more than you would get with most other probiotic supplements.*

FLAVOR

Cucumber Lime

INSTRUCTIONS

Do not mix with water. Simply shake the packet, pour the contents on or under your tongue, and hold them in your mouth for 30-45 seconds. The vitamins, minerals, and nutrients will be absorbed sublingually, bypassing your gut for optimal uptake by your body and brain while the probiotics will be absorbed in your gut after swallowing remnants.

Dosage may vary, but we recommend starting with 1 stick by mouth per day, preferably after a meal.
