## ABOUT

Vitamino-23™ (formerly known as AminoPower Advanced) are the perfect blend of 7 vitamins and all 23 essential free-form amino acids designed to bypass the digestive process resulting in rapid absorption. Vitamino-23™ provides both the body and brain with the ideal balance of amino acids for mental and physical well-being.\*

Amino acids are the raw materials your body needs to produce cells, bones, hormones, hair, skin and more. They are also the building blocks for our neurotransmitters, which communicate neurological information from one cell to another. Without sufficient vitamins and minerals, amino acids would not be able to fulfill their role as building blocks because they are the primary co-factors that help synthesize those neurotransmitters.

When transitioning from medications to EMPowerplus™ Advanced, including a broad-spectrum free-form amino acid may help to reduce or buffer withdrawal effects. They have also been helpful in mitigating cravings.\*
